Building Materials and Analysis

Mechanical Properties of Functionally Double Layered Thin Slabs 164
Milan Rydval, David Čítek, Tomáš Bittner, Šárka Nenadálová, and Jiří Kolísko

The Solid-Phase Method Synthetics and Study the Thermoelectric Properties Analyze of $\text{Ca}_3\text{Co}_2\text{O}_6$ 168
Jiaolian Luo, Weifu Cen, and Daji Tao

Concrete Structure Design and Mechanics Analysis

Polarization Behaviour of Silver in Model Solutions 172
Farhad Pargar and Dessi Koleva

Evaluation of Epoxy Injection Method for Concrete Crack Repair..... 177
Sarah Griffin, Hossein Askarinejad, and Brian Farrant

Comparative Study of the use of Man-Made and Natural Fibre Reinforced Concrete for Ground Floor Slab Applications..... 182
B. Nepal, C. S. Chin, and S.W. Jones

Numerical Simulation for the Mechanical Behaviors of a Concrete Dam with Consideration of Alkali-Aggregate Reaction..... 186
Shadi Mohammadpour

Road Engineering

Sulfur-Asphalt Site Construction Trial in Kuwait..... 190
Salah E. Zoorob and Suad K. Al-Bahar

A Integrated Comprehensive Evaluation Method on Tunnel Surrounding Rock Instability Analysis during Construction..... 199
Fengshan Wang, Wang Bo, Wanhong Zhu, Huajie Wu, and Ling Li

Geotechnical and Geological Engineering

Seismic Risk Assessments for Border Area of Shanxi, Hebei and Inner Mongolia, China 205
Jianming Yu

Hazard Assessment of Potential Debris Flow Using Linear Combination Based on Analytic Hierarchy Process (AHP)—a Case Study for Changhua County, Taiwan 211
Szu-Hsien Peng, Chuan Tang, and Qunsheng Fang

Architectural Design and Construction

The Coexistence of Western and African Influences in Southern African Architecture: The ‘Underdeveloped’ and ‘Developed’ Technologies in the Age of Globalization 215
Barbara P. Jekot

Incidence of Building Defects in Residential Construction in the State of Queensland, Australia.....222

Rebeca L. Lambers and Fiona Lamari

The Analysis of Importance Index to the Dominant Category Causing Contractor Contingency Cost in Aceh Province
.....228

Hafnidar A. Rani

Oceanographic Engineering

Evaluation of Water Exchange between Anzali Lagoon and Coastal Waters of the Caspian Sea via Connecting
Channel, North of Iran233

Siamak Jamshidi
